Carol, now that we are on with Susan, have you seen or tinkered with the region 10 briefing materials? There might be something out there, I just do not remember.

Carol – thanks for your email.

We should have time to cover this during the Weekly, if needed.

Why don't you send an email to Susan Thursday morning, along with the attachment and offer that we can discuss at the OCE Weekly if she would like to do so?

If she would like to discuss, and if R10 wants to be on the call for the discussion, it turns out our first item on the agenda is a R10 CAA case, and we'll have R10 folks on the line at the beginning of the Weekly for that topic. If we end up discussing Lower Umatilla and R10 wants to join for this topic as well, we can plan to cover this as the second item. Otherwise, we'll probably finish up the other AED items first.

Thanks,
Karin

Hi Rosemarie and Karin,

Apologies for the late notice, but we have a suggested agenda item for tomorrow's OCE weekly. It's about the SDWA Section 1431 petition EPA received earlier this year for nitrate contamination in the Lower Umatilla Basin in Oregon (attached for reference). Region 10's scheduled to provide an informational briefing for Dave Ross and Anna Wildeman on June 4. WED can cover the briefing next week, but we wanted to flag it for you and Susan in case you have questions or want to join.

Thanks,
Carol
